Technical Skills

Frontend:

- **Languages:** HTML, CSS, JavaScript, Typescript
- **Frameworks/Libraries:** React, NextJS
- **Styling:** Tailwind, Bootstrap, MUI

Backend:

- **Runtime:** Node.js
- **Frameworks:** Express
- **API Development:** REST API
- **Databases:** MongoDB, Firebase

Tools, Testing & Version Control:

- Git, Figma, Jest

Languages

English: Native

German: Certified B2

Heron Laoutaris

Web Developer

Featured project: Portfolio Hub

<https://incredible-taffy-f3a474.netlify.app/>

Not your typical portfolio hub! As you might expect, you can find information about me, in addition to links to my previous work. However, what I'm really proud of, and what I hope you'll take the time to explore, is the hub itself. I tried to do things a bit differently, presenting a multitude of interlocking apps and features in the form of a desktop-like environment. I put a lot of love, thought and creativity into making this, and would be delighted if you'd take a few minutes of your time to explore.

Professional Experience

02/2023 - 06/2024

Code Academy Berlin

Web Development Mentor

Responsibilities:

- **Led Cohort Training:** Took primary responsibility for training each assigned cohort in a comprehensive 6-month web development program, ensuring student engagement and progress.
- **Curriculum Development:** Collaborated in designing and updating course content and syllabus to stay current with evolving industry trends and best practices.
- **Instructional Sessions:** Planned and conducted regular teaching sessions covering HTML, CSS, JavaScript, React, TypeScript, Express, MongoDB, Tailwind CSS, Node.js, and Next.js, facilitating understanding of both foundational and advanced topics.
- **Agile Methodologies:** Implemented Agile practices, including sprint planning and execution, to simulate real-world development environments and enhance team collaboration.
- **Collaborative Learning Environment:** Fostered a collaborative atmosphere by incorporating industry-standard practices such as code reviews, pair programming, project presentations, version control, and sprint retrospectives.
- **Project Guidance:** Assisted students in planning and executing project objectives, addressing technical challenges as they arose, and promoting a culture of perseverance and continuous learning.
- **UI/UX Focus:** Imparted a keen eye for user interface (UI) and user experience (UX) design principles, guiding students in making informed design decisions to enhance the usability and aesthetic of their projects.

Education

09/2022 - 02/2023

Code Academy Berlin

Web Development Student

840 hours on-site training

09/2007 - 08/2010

University of Leicester

BA Political Science

1st class honours
